Available online 13 November 2006

In our paper that appeared in *Microporous and Mesoporous Materials* 94 (2006), 243–253, a mistake of chemical formula was found. In Fig. 9 on page 252, arsenic species on the right-hand side is As(OH)₂(OFe_{surface})₂, not AsO₂(OFe_{surface})₂. Corrected Fig. 9 is as illustrated below.

Fig. 9. Proposed promoted sorption mechanism of low concentrations of arsenite on acetate-exchanged FeO_x(OH)_y heated at 423 K.
